

The AMERICAN HERITAGE COLLECTION

by John Boos & Co.

Presenting the American Heritage Collection from John Boos & Co., America's oldest manufacturer of premium quality kitchen equipment designed to the exacting standards of professional chefs. Since 1887, John Boos & Co. has proudly offered fine butcher blocks, cutting boards, kitchen workstations and carts, and other food preparation products. Generations of professionals have used them in restaurants, commercial and institutional foodservice, government and educational foodservice, even the White House. Now, the American Heritage Collection brings this level of quality and unparalleled craftsmanship to products designed to be at home in the finest kitchens in America, including yours!

Harvest Table

As a kitchen workstation or small island, the **American Heritage Harvest Table** is as beautiful as it is functional. Made from four-inch-thick, solid end-grain Northern hard rock maple, its impressive butcher-block top will provide years of service. The 60" x 30" oval surface is accessible from all sides and more than large enough for any food preparation task. This table also makes a wonderful presentation surface for entertaining, including holiday buffets!

The Harvest Table includes two slatted lower shelves for storage plus three unique wicker basket drawers that can

offer quick access to a multitude of items: pots and pans, utensils, linens and towels, recipe ingredients and so much more.

The American Heritage Harvest Table by **John Boos & Co.** will not only last a lifetime, it also will become a true family heirloom, lasting for many generations of kitchen memories.

Gathering Block

Designed to serve as a centrally located kitchen food preparation station, the **American Heritage Gathering Block** provides quick and easy access to and from counters, sinks, refrigerator and range areas. Measuring 25" x 24", the four-inch-thick, solid end-grain Northern hard rock maple top is as rugged as they come, yet simple to maintain. Solid 4" square legs, finished in your choice of colors, support the heavy butcher-block and provide a rustic look. A large wicker basket, mounted under the top, slides out for quick access to stored utensils, recipe ingredients, cookbooks or other materials. A slatted lower shelf provides

additional storage capacity. We're sure this table will quickly become a favorite place in your kitchen for gathering around and discussing the events of the day or what's next on the menu!
